DRUG ABUSE AND DRUG DEPENDENCE

Use of opium, hashish, tobacco, smoking, barbiturates, drinking tea and many other new drugs are common in practice for pleasure and satisfaction or to induce sleep or to elevate mood.

These drugs have become the requirement for modern people to live comfortable life. All these drugs are known by different terms. i.e. - Drug abuse, addiction, drug dependence etc.

Drug Abuse: - It is the inappropriate, excessive and persistent use of a drug beyond the medical need. eg. - Codeine phosphate (cough syrup) used for drowsiness sleeping for hypnotic & addiction.

Drug addiction: - It is defined as a state of chronic intoxication produced by the repeated consumption of drug where the individual need that drug by any means, the compulsion is there to ~~take~~ take the drug.

The tendency of a drug dose is increased.

Drug habituation: - It is a condition resulting from the repeated consumption of a drug, there is a desire but not compulsion of a drug, desire for the sense of well being. a little or we tendency to increase the dose.

Tolerance: - It is a form of drug resistance. eg. if a individual is taking a drug repeatedly, then it is likely to become less effective in the individual body because the body is used to that drug so to get the effective result the dose has to be increased.
